Since 2012, Radio Urban FM as the only radio station from Republic of Kosovo, is regular member of World Association of Community Radio Broadcasters, AMARC Europe

Radio Urban FM is in front of implementing two projects (activities) which have to do with digital archiving, as it follows:

- Establishment of permanent digital library of radio outlets that during these 14 years of existence, Urban FM has produced and broadcast. As in all Europe, in Kosovo too, electronic broadcasting media (Radio and TV) starting from next year is passing entirely in digital mode, i.e. there will be no use of analog anymore. As such Radio Urban FM is in the need of learning more information, exchange of experiences, receiving “know how” information’s on the issue of digital archiving.
- One of the biggest projects that Radio Urban FM is planning to initiate in the beginning of 2015, is establishment of café-library Urban Radio Press Café - a gathering place/point for journalists, civil society, editors and/or of generally young people where they while having their regular daily café they will have the opportunity to have access in print and digital radio and press outlets. In a way in place will be a small library which will include the section where the digital library via PC’s, will be provided to guests. In this sense, when established this library will be unique (the first and only one in Republic of Kosovo) where we will provide audio / radio outlets for guests to be able to listen in our place starting from short radio stories produced by Urban FM, then complete shows of Urban FM VJ’s but also the shows and radio outlets from different world wide radio stations as well books (in audio format), radio- documentaries, radio-drama’s etc.
